Change NV4 FOR NV10 USB

Not responsible for changes or errors

Due to advances in technology and security it is recommended that all NV4 validators are replaced with the NV10 USB bank note validator. Various conversion kits are available depending on which NV4 bezel is currently being used.

Change NV4PA121 ('Notes' bezel) For NV10 USB

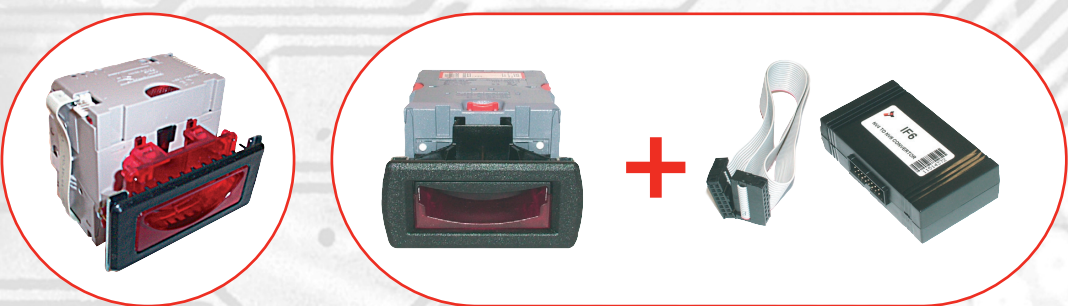

NV10 USB-101

IF6 Interface

Adaptor Plate PA258

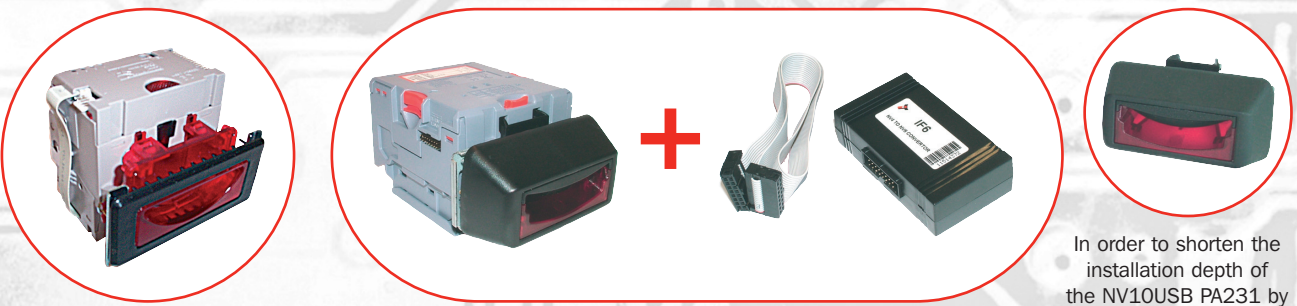

Change NV4PA134 (Universal bezel) For NV10 USB

NV10 USB-101

IF6 Interface

Change NV4PA134 (Universal bezel) For NV10 USB - Short installation Depth

NV10 USB-102

IF6 Interface

In order to shorten the installation depth of the NV10USB PA231 by ~45mm, please use Extended Bezel PA266
